A. <u>Discussion of Fall 2021 Newsletter Proposed Article Topics and Production Schedule.</u>

ASsup Hill presented the subject item. She provided a brief summary of the proposed newsletter article topics. ASsup Hill noted that the proposed list of Main Articles needs to be reduced due to the size restrictions of the newsletter.

Chairperson Brown suggested that the lead article be how the drought affects wastewater collection. He stated that this topic impacts more people at the moment. GM Bushee stated they would make the change and shift the Resiliency Plan article to a Main Article. Director Roesink agreed with Chairperson Brown.

Chairperson Brown asked how many Main Articles can fit into the newsletter. Ms. Grootenhuis stated four or five articles, with four being ideal for spacing, content, and size.

Following discussion, the CAC narrowed the main articles to the following:

- Resiliency Plan and Olivenhain Municipal Water District Mutual Aid Agreement;
- Allan Juliussen Board Member Memorial;
- Holiday cooking (No FOG) Reminder;
- New Employees:
- Year End Review Stats; and
- Teacher Grant Applications

Chairperson Brown suggested removing the Teacher Grant Applications if there is not enough space in the newsletter since it was mentioned in the Spring 2021 newsletter. Staff stated they would do this.

GM Bushee noted that staff and RTP also use the District website page and the District Facebook page to announce the Teacher Grant Applications and that they also visit the schools to talk about the program.

Chairperson Brown stated he would like to see the surf cam link in the newsletter. Staff stated they would add it.

Following discussion, the CAC authorized staff and RTP to proceed with the newsletter articles and the production schedule.

A. <u>Authorize the General Manager to execute an agreement for mutual maintenance services and equipment between Olivenhain Municipal Water District (OMWD) and Leucadia Wastewater District (LWD).</u>

FSS Stecker presented this item to the EC. He began by stating that OMWD owns and operates hydraulic valve turning equipment used to exercise valves throughout their water distribution system. During the Leucadia Pump Station Rehabilitation Project, LWD contacted OMWD to open a large valve that staff could not manually open. As a result, LWD staff reached out to OMWD and asked about future assistance to exercise two large valves at Batiquitos Pump Station and one at Leucadia Pump Station on a biannual basis.

FSS Stecker noted, in return, OMWD asked if LWD could provide services to clean two of OMWD's pump station wet wells using our combination hydro-cleaning / vacuum trucks.

FSS Stecker stated that the hydraulic valve turning equipment costs \$40,000. He continued that an additional truck would need to be purchased for the equipment to be mounted on. He explained that staff would require training and that there would be additional cost for maintenance and repair of the hydraulic equipment.

Chairperson Omsted asked if the agreement was vetted by General Counsel. FSS Stecker replied affirmatively.

Director Roesink asked about the agreement and any risks, upsides or downsides. GM Bushee stated this is a non-binding agreement and that any party can step away from the agreement at any time.

Following discussion, the EC concurred with staff to recommend that the Board of Directors authorize the General Manager to execute a mutual maintenance services and equipment agreement between OMWD and LWD.

#### 5. Information Items

#### A. <u>Development Projects Summary</u>

Chairperson Omsted asked if there are any utility conflicts with the project taking place on Jason Street in the City of Encinitas. FSSpec Riffel stated there are no utility conflicts.

Chairperson Omsted asked if projects 1114 and 1115 (Eolus & N. Vulcan) were LWD projects. FSSpec Riffel stated that project 1114 is an annexation into the District and 1115 is a new development where approximately 300 feet of LWD sewer would be rerouted and/or realigned.

#### B. Leucadia Pump Station Rehabilitation Project (LPSRP) Update

TSM Morishita provided an overview of the completed LPSRP Project to familiarize Director Roesink with the project and its major goals.

#### C. FY21 Cured-In-Place Pipe (CIPP) Lining Project

FSSpec Riffel updated the EC on the progress of the FY21 CIPP Lining Project. He stated that to date, Nu Line Technologies has completed 29 of 29 repairs. He further detailed the Cured-In-Place Manhole Liner (CIPML) installation that took place in an easement near La Costa Avenue. FSSpec Riffel displayed imagery showing major infiltration into the manhole to be repaired. He went on to explain the process of cleaning out and installing the CIPML into the manhole.

#### 6. Directors' Comments

Director Roesink commended staff.

Chairperson Omsted indicated that the Board of Directors be offered a tour of the newly rehabilitated LPS.

#### 7. General Manager's Comments

#### 14. Encina Wastewater Authority (EWA) Reports

A. A regular EWA Board Meeting was held on July 28, 2021.

Director Sullivan reported on EWA's July 28, 2021 Board Meeting.

#### B. An Encina Member Agency Manager's (MAM) Meeting was held on August 3, 2021.

GM Bushee reported on EWA's August 3, 2021 MAM meeting.

#### 15. Committee Reports

A. Investment and Finance Committee Meeting was held on August 5, 2021.

Vice President Hanson reported that the IFC conducted its annual review of the LWD Procurement Policy and made some recommended changes to the Policy. Staff stated they would make the changes and the IFC concurred with staff to present the revised Procurement Policy to the Board at the August Board Meeting for approval. Vice President Hanson stated this item will be discussed later in the agenda.

#### B. Community Affairs Committee Meeting was held on August 16, 2021.

Director Brown reported that the CAC reviewed the proposed newsletter topics, along with the production schedule. The CAC suggested that the lead article be How the Drought Affects LWD. Director Brown stated the CAC also narrowed down the list of main articles and made several other suggestions regarding content. The CAC then directed staff to move forward with drafting the newsletter articles.

#### C. Engineering Committee Meeting was held on August 16, 2021.

Director Roesink reported that the EC reviewed a recommendation to authorize the General Manager to execute an agreement for mutual maintenance services and equipment between Olivenhain Municipal Water District (OMWD) and Leucadia Wastewater District (LWD). The EC concurred with staff to present this recommendation to the Board of Directors and it will be discussed later in the agenda.

The EC also received updates on the Development Projects Summary, the Leucadia Pump Station Rehabilitation Project, and the FY21 Cured-In-Place Lining Project. These items were for information purposes and there was no action taken.

President Omsted stated he would like the Board to tour the Leucadia Pump Station.

#### **ACTION ITEMS**

#### 16. Annual Review of LWD's Procurement Policy

Adopt Resolution No. 2354 - Approving LWD's Revised Procurement Policy.

ASM Duffey presented the item noting it was reviewed by the Investment and Finance Committee (IFC) at their August 5<sup>th</sup> meeting. ASM Duffey provided background information and gave a presentation on the Procurement Policy. He stated that the IFC recently met to conduct is annual review of the policy. Based on this review, staff and the IFC are recommending the following updates to streamline and clarify the policy:

- Eliminate Section 3.8 "Discrimination Language" because it is not legally required.
- Updated references to "telephone" services in the Policy to "telecommunications".
- Moved language relating to "continuing services" from Section 12 to Section 11.1 Sole Source Procurement.
- Clarified language under Section 11.1B regarding justifications for sole source procurements.
- Other minor edits.

Upon a motion duly made by Director Brown, seconded by Vice President Hanson, and unanimously carried, the Board of Directors adopted Resolution No. 2354 - Approving LWD's Revised Procurement Policy by the following vote:

Director	Vote
President Omsted	Yes
Vice President Hanson	Yes
Director Sullivan	Yes
Director Brown	Yes
Director Roesink	Yes

#### 17. Mutual Maintenance Services and Equipment Agreement

Authorize the General Manager to execute an agreement for mutual maintenance services and equipment between Olivenhain Municipal Water District (OMWD) and Leucadia Wastewater District (LWD).

FSS Stecker presented the item noting it was reviewed by the Engineering Committee (EC) at their August 16<sup>th</sup> meeting. He provided background information stating that OMWD owns and operates hydraulic valve turning equipment used to exercise valves. FSS Stecker stated that during the Leucadia Pump Station Rehabilitation Project, LWD contacted OMWD to open a large valve that staff could not manually open. As a result, LWD staff reached out to OMWD and asked about future assistance to exercise two large valves at Batiquitos Pump Station and one at Leucadia Pump Station on a biannual basis. In return, OMWD asked if LWD could provide services to clean two of OMWD's pump station wet wells using our combination hydro-cleaning / vacuum trucks.

FSS Stecker stated that the hydraulic valve turning equipment costs \$40,000. He continued that an

additional truck would need to be purchased for the equipment to be mounted on, staff would require training, and there would be additional cost for maintenance and repair of the hydraulic equipment.

The Board thanked FSS Stecker for his efforts in the collaboration between OMWD and LWD.

Director Brown asked if LWD is tracking the hours used between the agencies. GM Bushee answered that the exchange of services is estimated to be about twice a year and there is no anticipated transfer of cash between the agencies. GM Bushee stated he would keep the Board informed if the agreement didn't seem equitable or fair and there is language in the agreement that allows it to be terminated at any time.

Following discussion, upon a motion duly made by Vice President Hanson, seconded by Director Sullivan, and unanimously carried, the Board of Directors authorized the General Manager to execute an agreement for mutual maintenance services and equipment between Olivenhain Municipal Water District (OMWD) and Leucadia Wastewater District (LWD) by the following vote:

Director	Vote
President Omsted	Yes
Vice President Hanson	Yes
Director Sullivan	Yes
Director Brown	Yes
Director Roesink	Yes

#### 18. Board of Directors Committee Assignments

GM Bushee presented the item and provided background information noting that this item is a followup to the Board Strategic Planning Workshop. He stated there are three options listed for the Board to consider regarding the appointment of standing committee members. GM Bushee then reviewed the three options.

President Omsted stated he would like to see the committee members rotate. He then asked the Board for comments.

Vice President Hanson stated she preferred Option 2.

Director Sullivan stated she preferred Option 3 since continuity with the Encina Board is very important.

Director Roesink stated he preferred Option 3. He stated that it is a good hybrid option that allows the current LWD Board President discretion to select members for the Encina Board.

Director Brown stated he preferred Option 3. However, he noted that future Board Presidents should consider opportunities for other Board members to be on the Encina Board.

President Omsted stated he preferred Option 2 but there is value to option 3 since some Board members may not be able to attend the Encina Board Meetings. President Omsted agreed with Director Brown that there should be opportunities for other Board members to be on the Encina Board.

Following discussion, upon a motion duly made by Director Sullivan, seconded by Director Roesink, and unanimously carried, the Board of Directors selected Option 3: 2-Year Rotating and Alternating

Committees for LWD Committees Only (not Encina) and approved Resolution No. 2355 Revising the Policy for the Election of Board Officers, Establishment of Committees and Selection of Board Committee Members by the following vote:

Director	Vote
President Omsted	Yes
Vice President Hanson	Yes
Director Sullivan	Yes
Director Brown	Yes
Director Roesink	Yes

#### 19. Project Status Updates and Other Informational Reports

CSDA Quarterly Dinner Meeting is scheduled for Thursday, August 19, 2021 at the 94th Aero Squadron in Kearny Mesa, CA

EA Baity announced the time and location of the CSDA Quarterly Dinner Meeting. She noted that this will be an in-person meeting at a new location. GM Bushee stated there would be a carpool leaving at 5:45 p.m.

#### 20. Directors' Meetings and Conference Reports

2021 CASA Annual Conference was held August 11 - 13, 2021 in San Diego, CA.

Director Sullivan stated it was great to see everyone in person and she really enjoyed the discussion on the rebuilding of Paradise after the 2018 fire. Directors Hanson and Omsted agreed with Director Sullivan.

Director Roesink stated it was his first conference as a Board member. He stated the conference was well done and he was very proud to represent the District.

#### 21. General Manager's Report

GM Bushee reported on the following:

- North San Diego County Regional Recycled Water Project (NSDCRRWP) approved for \$6.2M in WIIN Title XVI federal funding; and
- Employee COVID Status Update

GM Bushee stated the September Board Meeting is scheduled to be an in-person meeting. He asked the Board if they would like to keep the September Board Meeting in-person or go virtual. The Board reached consensus to change the September Board Meeting to a virtual meeting.

#### 22. General Counsel's Report

GC Brechtel reported on the following:

- CASA Conference Updates AB 818: Wipe Legislation and Governor's Executive Order regarding the Brown Act; and
- SB 594: Elections and Local Redistricting

Director Sullivan asked if the District boundaries will change now that the Census Bureau results have been released. GM Bushee answered the outside boundaries will not change but the shape of

the electoral districts within those boundaries could change.

Director Sullivan asked when will the new electoral districts be established. GM Bushee answered that normally Census data is released in February and new electoral districts need to be established by November. GM Bushee noted it will be difficult to meet that deadline since the Census information was just released. However, if SB 594 is passed the District will have until April 17, 2022 to adopt adjusted District boundaries.

#### 23. Board of Directors' Comments

Director Sullivan stated she is looking forward to the CSDA Conference and the CSDA Quarterly Dinner.

Director Brown stated it was good to see everyone in-person at the Strategic Planning Workshop. He also stated he would like to get a tour of the Leucadia Pump Station. GM Bushee stated he would provide a tour to the Board at their convenience and EA Baity would assist with scheduling the tour.

A. Adopt Resolution No. 2353, Aldern Annexation, as presented.

FSSpec Riffel presented staff's recommendation. He explained that the proposed Aldern Annexation into the Leucadia Wastewater District's (LWD) service area involves one parcel totaling 0.48 acres, located west of Interstate 5, north of Leucadia Boulevard and east of Hygeia Avenue. He continued that the existing single-family residence is currently connected to a septic tank system. FSSpec Riffel stated that per the City of Encinitas, the parcel is required to connect to the public sanitary sewer system to satisfy a permit condition for a proposed addition to the residence. He continued that connection to the District's collection system requires the construction of approximately 190 linear feet of public sewer extension on Eolus Avenue. He stated that there is sufficient capacity to accommodate the connection of the existing single-family dwelling and the addition.

FSSpec Riffel explained the fees associated with an annexation, specifically District fees and Local Agency Formation Commission (LAFCO) fees.

Director Roesink asked who determines whether a resident stays on septic or is required to connect to the public sewer? FSSpec Riffel answered that, in this case, the City of Encinitas does.

Following discussion, the EC concurred with staff to recommend that the Board of Directors adopt Resolution No. 2353, Aldern Annexation.

#### 5. Information Items

#### A. Easement Crawler Update

Field Service Technician (FST) III Ryan Rodriguez presented an update of staff's use of the Easement Crawler (Crawler). He provided the EC with background information of the Crawler including the purchase date, price and Crawler specifications. He continued with presenting two recent instances where staff used the Crawler. FST III Rodriguez explained how the Crawler is an extension of the Combination Hydro-Cleaning Truck. He stated that the Crawler enables easier maintenance of easement line segments, allows staff to properly clean a line segment, reduces crew size, and improves crew safety and efficiency.

#### 6. Directors' Comments

Director Roesink thanked staff for their time and for the information he received as a new Committee member.

#### 7. General Manager's Comments

None.

#### 8. Adjournment

President Omsted adjourned the meeting at approximately 10:05 a.m.

Paul J. Bushee, Secretary/Manager (Seal)

August 2021 Board Disclosure of Reimbursements Report

#### RECOMMENDATION:

Staff requests that the Board of Directors:

1. Receive and file the Board Disclosure of Reimbursement Report for the month ending August 2021.

#### **DISCUSSION:**

Government Code Section §53065 stipulates that Special Districts must disclose reimbursements of \$100 or more on at least an annual basis. Leucadia Wastewater District (LWD) prepares the Disclosure Report every month in accordance with Resolution No. 2291 – The Integrated Travel Authorization and Expense Reimbursement Policy, which is above and beyond the requirements of Government Code Section §53065.

Attached please find the Board Disclosure of Reimbursements report for the month of August 2021 for your review.

TO:

**Board of Directors** 

FROM:

Paul J. Bushee, General Manager

SUBJECT:

RCP for PJB Resolution No. 2353 Requesting LAFCO to Take Proceedings for the Aldern

Change of Organization

#### RECOMMENDATION:

Staff and the Engineering Committee recommend that the Board of Directors:

1. Adopt Resolution No. 2353, Aldern Annexation, as presented.

2. Discuss and take other action, as appropriate.

#### DISCUSSION:

This item was reviewed at the August 27th EC meeting and the EC concurred with staff to present this item for the Board's consideration.

The proposed Aldern Annexation into the Leucadia Wastewater District's (LWD) service area involves one parcel totaling 0.48 acres, located west of Interstate 5, north of Leucadia Boulevard and east of Hygeia Avenue.

This annexation is within the District's sphere of influence and includes one parcel with an existing single-family residence that is currently connected to a septic tank system. Per the City of Encinitas, the parcel is required to connect to the public sanitary sewer system to satisfy a permit condition for a proposed 967 square foot addition to the existing single-family residence. The connection of the existing single-family residence to the collection system requires the construction of approximately 200 linear feet of public sewer extension on Eolus Avenue before one (1) private lateral connection can be attained. The annexation is necessary to provide sewer service to this property.

Approval of Resolution No. 2353 would authorize a boundary annexation.

LWD's collection and treatment systems have sufficient capacity to accommodate the existing single-family dwelling. Attached please find a copy of Resolution No. 2353 for your review.

#### **RESOLUTION NO. 2353**

# A RESOLUTION OF APPLICATION BY THE BOARD OF DIRECTORS OF LEUCADIA WASTEWATER DISTRICT REQUESTING THE LOCAL AGENCY FORMATION COMMISSION TO TAKE PROCEEDINGS FOR THE PROPOSED ALDERN CHANGE OF ORGANIZATION

RESOLVED, by the Board of Directors of the Leucadia Wastewater District, that

WHEREAS, the Board of Directors of the LEUCADIA WASTEWATER DISTRICT (LWD), San Diego County, State of California, desires to initiate proceedings pursuant to the Cortese/Knox/Hertzberg Local Government Reorganization Act of 2000, Division 3, commencing with Section 56000 of the California Government Code for the proposed Aldern Change of Organization; and

WHEREAS, the proposed Aldern Change of Organization includes annexation of the Aldern territory (APN 254-392-17-00) to the LWD; and

WHEREAS, the reasons for this proposed Change of Organization are as follows:

- 1. LWD is empowered to and is engaged in the collection, treatment, and disposal of wastewater and has existing facilities to provide wastewater service to the territory proposed to be annexed.
- 2. The owners of the territory desire to utilize the LWD facilities.
- 3. The territory to be annexed is within LWD's Sphere of Influence.

WHEREAS, the territory subject to the proposed Change of Organization is inhabited, and a description of the external boundary of the territory is set forth in Exhibit "A" and a map thereof is set forth in Exhibit "B", both attached hereto and by this reference incorporated herein; and

WHEREAS, LWD requests that the proposed Change of Organization be subject to the following terms and conditions:

1. The annexed property is thereafter subject to capacity fees, sewer service fees, and all other district-wide Ordinances and Resolutions of LWD.

WHEREAS, LAFCO is authorized to approve this proposed Change of Organization without notice or hearing and without an election. If no express effective date is indicated, the effective date of the Change of Organization shall be the date of recordation of the Certificate of Completion and Resolution ordering the change of organization by the County Recorder.

RESOLUTION NO. 2353 Page two

WHEREAS, the staff of LWD has reviewed this proposed Change of Organization under the California Environmental Quality Act (CEQA) and has found it to be categorically exempt from CEQA pursuant to Section 15319 (a) of the California Environmental Quality Act.

**NOW, THEREFORE,** this Resolution of Application is hereby approved and adopted by the Board of Directors of the LEUCADIA WASTEWATER DISTRICT. The Local Agency Formation Commission of San Diego County is hereby requested to take proceedings for the proposed Change of Organization that includes the territory as described in Exhibit "A" and shown in Exhibit "B", according to the terms and conditions stated above and in a manner provided by the Cortese/Knox/Hertzberg Local Government Reorganization Act of 2000.

Strategic Planning Workshop Report

#### **RECOMMENDATION:**

Staff recommends that the Board of Directors:

1. Receive and file the August 4, 2021 Strategic Planning Workshop Report from Confidence Consulting.

2. Discuss and take other action as appropriate.

#### DISCUSSION:

The Board of Directors conducted its Strategic Planning Workshop on August 4, 2021. Mr. Jeff Bills facilitated the workshop. Prior to the workshop, Mr. Bills conducted interviews with the Board and key staff members. Based on the Board interviews, Mr. Bills recommended that the workshop focus on lessons learned from the pandemic, how these experiences make us a better organization, future expectations, and Board Committee Assignments.

Overall, staff believes that the Strategic Planning Workshop was very productive. Mr. Bills has since developed a summary report of the workshop and the report has been attached for your review.

Staff is recommending that the Board receive and file the Strategic Planning Workshop Report.

## CONFIDENCECONSULTING

Leucadia Wastewater District Board of Directors Strategic Planning Workshop Wednesday, August 4, 2021 Carlsbad, California Workshop Summary

#### Overview

The LWD Board of Directors along with members of the Leadership Team, District Attorney and District Engineer met in a workshop setting; to discuss results from the Board and Staff interviews held prior to the workshop; to review and give input into lessons learned from the Pandemic, specifically how the Pandemic experience can help in becoming a better Board and organization; what we can expect in the future as a result of the Pandemic, and how best to respond; and to address the issue of Board Committee assignments. (See attached agenda for specifics)

#### Welcome and Introductions

Paul Bushee, General Manager, welcomed each attendee to the Workshop and invited each participant to introduce themselves. All Board members were present. It was noted that the workshop was the first time the Board had met in person since the pandemic required meetings to be held remotely. Jeff Bills, Workshop facilitator outlined expectations for the workshop.

#### Results of the Board and Staff Interviews

The Board and staff discussed eight key areas of Board responsibility and provided input into each area. The summary of discussion regarding each area is outlined below.

#### Clarity and Purpose

The Board discussed their ongoing commitment to the mission and values of the organization. Members focused on the mission and how it impacts the community and the organization itself. Board members reaffirmed their belief in the mission and the values that have made LWD strong and impactful. Matt Brown asked to read the mission statement out loud. There was discussion about how to make the mission more "active" in Board decisions. Board members agreed that asking if every decision they made in Board Meetings was consistent with the Mission of the organization was a good way to validate the mission's role in governance decisions. It was clear the Board was aware and concerned about the Mission and making it part of all decisions. There was also discussion about the values of the organization and how the values are central to the culture that exists at LWD. Board members talked about the organization's values and ongoing commitment to the support required to maintain these values and the impact they have on success.

#### Fiduciary Oversight

The Board reaffirmed its strong focus on existing financial health and continuing to increase financial stability. There was considerable discussion on how financial security provides for flexibility during challenging times. The Board focused on their role in making sure the organization is financially strong, with financial security to weather unplanned events. Board members talked about the 2020 decision regarding not raising rates to customers, the impact of having financial security on the decision itself, and the position LWD enjoys in the area as having the lowest rates but the best reputation for service and quality. Board members unanimously agreed that maintaining financial security is key to the future and long-term success. Members of the Leadership Team also made supportive statements in agreement with the Board commitment to financial strength.

#### Strategy

The Board discussed strategy in relation to making sound decisions that ensure LWD's long term success. There was discussion and agreement on the importance of staying focused on the organization's key tactics, continuing to empower leadership and staff, focusing on technology, continuing to place emphasis on staff and the hiring process, and education and development for both the staff and Board. Management also gave verbal support to the above items and the role they play in operations.

#### Board Competence and Expertise

Board members acknowledged their individual levels of expertise and expressed commitment to learning and gaining additional knowledge. There was focus on the importance of every board member being prepared for Board Meetings, reading pre-distributed board material, making board meetings more effective, doing pre-work when there are questions or concerns and the efficient use of Board Committees. Board members expressed agreement on the importance of understanding the issues to be discussed and agreed on the value of seeking further information when needed and finding ways to make Board meetings a validation of outstanding preparation and critical review.

#### **Board Meetings**

The Board reaffirmed its' commitment to having Board Meetings that reflect the best of every individual board member and the Board in its entirety. There was presentation and discussion about how the Board conducts business in open Board meetings and Board reputation. There was presentation about how potential conflict between board members at Board meetings can hurt the organization's reputation. Board members showed agreement on the importance of civility and teamwork when it comes to Board reputation and community standing. There was no disagreement from any board member on the value of having Board meetings that reflect the very best from each member and in the way they conduct business.

Staff members also concurred with the importance of Board civility and maintaining professional working relationships as well as the importance of the same thing at the management level.

#### Board Roles and Responsibility

The Board clearly understands their role and responsibility and reinforced several times the trust and confidence they have in management. There was specific reference to the importance of this trust during the pandemic. Board members articulated the success of LWD during the pandemic because of both board flexibility and trust between the board and management. There was specific reference from board members regarding the importance of maintaining this strength in relationships.

#### Performance Evaluation

While the Board has not been active in board performance evaluation, board members expressed interest in doing board self-evaluation and also looking for ways to receive feedback from key constituents. The board asked Confidence Consulting for examples or outlines of self-evaluation methods or processes that could be considered.

#### Board and Leadership Succession

Within the limits of Board election process, the Board clearly recognized the importance of attracting new Board members to the process who are talented and capable of bringing new expertise to the Board itself. The Board also recognized the need to continue a strong Board orientation process and providing Board members with opportunities for education and training. Because committee assignment was on the agenda for discussion later, there was limited comment, but varying opinion was given on process and decisions regarding committee assignments. The Board also commented positively on the way Management allocates time and resources to leadership training and development, consistent with the approach at the Board. Management also commented on the advantage and benefit of being able to have on-going leadership training and development. The Board also discussed the specific needs in finance and the relatively soon departure of the current Administrative Services Manager. Board members commented on the need for specific attention to finance, and support for the General Manager. Management responded in agreement and stated the importance of replacing the position with talent specific to finance, as opposed to a long-term outsourcing concept. There was also discussion regarding current leadership taking on different responsibilities in order for this to occur.

## Lessons Learned from the Pandemic

The Board and staff discussed the impact of the pandemic so far; what we have learned from the experience; and what will have a positive effect on future Board deliberations and decisions. Summaries of key topics are to follow.

#### The Need to be Flexible and Adapt

Board members and management all recognized and commented on the strong ability LWD demonstrated to adapt quickly to the needs created by the pandemic. Board members commented on the quality of staff contributing to this ability. It was recognized by the entire Board that because of future uncertainty, the ability to be flexible and nimble in adapting to unplanned change continues to be important. There was agreement that the future is still uncertain.

#### Hybrid Work

The Board recognized and discussed the need for flexibility in work assignments. While the Board recognizes that significant work is tied to location, there was also agreement on the need to be flexible, in order to retain and attract outstanding and talented staff. Management responded in kind, recognizing the need to listen carefully to staff needs and having the flexibility to be creative.

#### Work Pool Quality Diminishment

The Board asked questions of management regarding the availability of talent to fill vacated positions. Management responded by giving an overview of recent open positions and the number of applicants. It was determined that the situation at LWD is different than at other agencies and the difference can be attributed to the culture and way of doing business at LWD. The Board and Management recognized the importance of maintaining the efforts made to continue this advantage. It was discussed by all, the importance of LWD being a preferred place of employment in order to attract and retain excellent staff.

#### Work Pool Knowledge

There was discussion regarding the differences in generational work groups and specifically the need to respond to Millennials who make up seventy percent of the work-force. Discussion centered on what all generational groups have in common when it comes to what they want at work. The Board agreed that there are differences in expectations from every generation but some are consistent and should be focused on. There was consensus that the best way to address these generational differences is to be good listeners and demonstrate flexibility in addressing their needs.

#### Work Life Balance

There was discussion regarding the need for LWD to be sensitive to the feelings of staff members regarding work-life balance. It was recognized that staff have new and different expectations when it comes to work, but being open to change without compromising the mission and values of LWD are to be maintained. Board members gave open and insightful thoughts into what might be expected in the future based on their own experiences. Management provided input, focusing on the need to listen to the needs of staff and respond in creative and adaptable ways.

#### Trust Between the Board and Management

The Board spent considerable time talking about the trust they have and placed in Management during the pandemic, and the trust they want to continue to have in the future. Management commented in the same regard and both parties recognized that one of the primary reasons LWD has done well during the pandemic is because of the positive relationship between the board and management. There was commitment from both management and the Board regarding a continuation of this trust by maintaining excellent communication, open dialogue and the ability the Board and management have to express open dissent without erosion of trust and respect.

#### Technology

The Board discussed their past and ongoing commitment to technology and providing staff with the most current and appropriate tools for accomplishing work, both in the field and in the office. The Board asked management directly if there were other needs that needed to be met. It was clear and evident that the Board understands the importance of keeping technologically current and the advantage it provides to the people LWD serves and to the staff doing the work.

#### Science and Change

There was limited discussion regarding the impact of COVID on science and scientific discoveries. The Board showed awareness as to new platforms for drug design and biological sequences that will affect all people, including LWD customers. There was understanding that the pandemic will change the pace at which science moves and that new approaches and discoveries, especially in the area of vaccines will have an impact on the way we do work.

#### Managing Unplanned Events

There was significant discussion regarding LWD and its' ability to manage unplanned events. The Board expressed approval for the way management handled the pandemic and agreed that more of the unexpected should be expected. It was agreed by both board members and management that we should be prepared for instability.

#### Supply Chain Sensitivity

The Board discussed and agreed that due to disruption to the supply chain, both the Board in its' planning and management in its operational planning should consider the time it now takes to procure essential items and equipment. It was agreed that more long-term planning for essential items, especially capital items needs to be done further in advance in order to effect timely delivery. It was recognized that there is some risk to this due to rapid changes in technology, but the consensus was to be pro-active in areas where risk is lower. There was also discussion about how this strategy requires the organization to maintain its financial position in order to capitalize needed items at a faster rate.

#### The Impact of Social and Political Changes

The Board discussed and recognized that COVID had impact when it came to both social policy and change as well as political change that brought new implications. It was recognized that while such changes might have limited impact on the service LWD provides, there is impact that relates directly to customers and to staff. There was agreement via the discussion that being aware of these things and sensitive to the impact LWD decisions have on customers and staff was an important issue to consider.

#### New Allocation of Resources

There was awareness that changes in the way we allocate resources is likely to occur. These changes could affect wage and salary strategy, operational resources strategy and even rate increase strategy. It was agreed upon that LWD will need to be open to different ways to allocate resources to meet needs that currently do not have high priority and that priority changes are likely to happen based on changes in the environment.

#### External Changes

The Board discussed the likely potential that LWD business will change based on now unknow changes externally. This could include situations involving natural disasters, such as drought, earthquakes, and new viral threats. The Board also recognized the threat associated with cyber-attacks and ransomware, significant downturns in the economy and rate change risks. Management responded in kind and outlined current efforts to address several of these issues.

## What Can We Expect in the Future

The Board discussed a number of potential expectations for the future and gave insight into appropriate direction. The considerations included the following:

#### Labor Resources

It was clear that labor resources, despite availability, will require more creative approaches from management, including flexibility in work status, and selection. Staying focused on hiring the right people, whose values match the values of LWD is critical. The ability of LWD to recruit and retain excellent staff will be a function of maintaining high quality and reputation and excellent screening.

#### Financial Resources

While it was assumed that income from current sources is likely to remain mostly stable, there was discussion regarding the way we currently obtain revenue, the lack of appropriate revenue due to increased units on single lots, and other potential threats. It was concluded that our projected financial resources/revenue is likely to be at low risk. There was however, clear agreement that things can always change and LWD should remain as efficient as possible.

#### Hybrid Work

It was agreed that hybrid work is here to stay but at what level at LWD is still uncertain. Paul Bushee, General Manager, pointed out the need to be flexible and adapt to need. There was agreement from both the board and management.

#### The Need to be Agile and Flexible

The Board reiterated the need to be adaptable and capable of making rapid change based on need and unexpected events. Management recognized the same need and stressed the importance of hiring individuals who are flexible and resilient and can adapt to serious events that were unplanned.

#### Technology

The Board maintained its' commitment to technology and LWD being able to perform with the best technology available and needed.

#### Leadership

The question of whether the Board provides adequate resources to the management team was addressed. The board affirmed its commitment to do so. Management affirmed that the Board was very sensitive to and has met their needs.

#### Roles and Responsibilities

The question, "Has the pandemic taken us away from our role" was discussed. Board members felt comfortable knowing that the organization has been disciplined during the pandemic, continued to focus on mission and values and working collaboratively with management. Management agreed.

#### Board Dynamics and Open Dissent

The Board addressed the importance of being able to demonstrate open dissent without threatening the current high levels of trust among Board members. Individual board members expressed the trust they felt among one another and management. There was agreement both to the importance of being able to disagree without disruption and being able to express different opinions on all issues.

#### Performance Evaluation

The board recognized that improving both the board self-evaluation process and looking for input from the management team would be valuable. The Board will consider approaches and next steps.

#### Accountability as Board Members

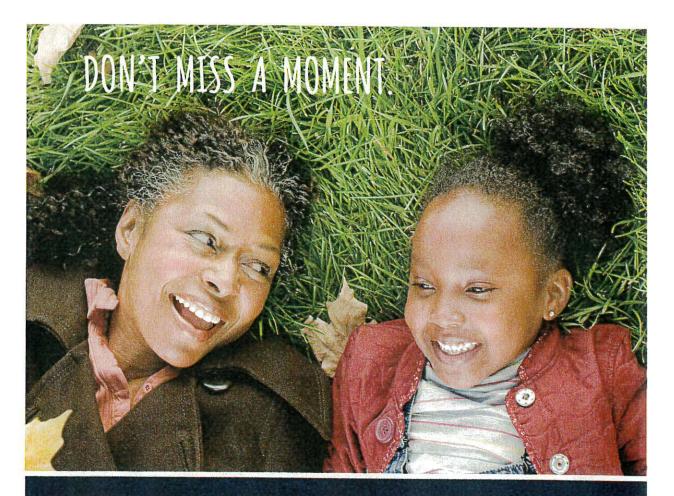

There was clear acknowledgement of the importance of each board member being accountable by being prepared and having done any necessary pre-work before each board meeting. There was continued commitment by the entire board to maintain this level of performance.

#### Teamwork

The Board expressed a high level of trust between members and an ongoing commitment to work together effectively on all matters regardless of differences of opinion.

# Key Issues to Address Board Committee Assignments

Jeff Bills commented every Board member (In pre-workshop interviews) had brought up the issue of committee assignments. He then turned the time to Don Omsted, President of the Board who addressed the issue. Mr. Omsted outlined his thoughts regarding Board rotation on committees and handed out a document which showed LWWD committee assignments by district and until the year 2024. There was significant discussion regarding the need for change, the value of learning new things and contributing talents to different committees and the interest board members have in serving on committees themselves. There was also discussion about board expertise, the benefit to each board member by serving on different committees. There were also questions about past actions on the matter itself. Paul Bushee provided an overview of what had been done in the past, including assignment by the President, full rotation and rotation on four committees and President assignment to serve on the Encina Board. The Board agreed to have Paul provide an overview of what had previously been done and to put the matter on the next Board meeting agenda for discussion and a decision.
