**LEUCADIA WASTEWATER DISTRICT**  
**QUARTERLY TREASURER'S REPORT SUMMARY**  
As of September 30, 2022

- A. The liquidity of the investments and expected cash flow of the Leucadia Wastewater District (LWD) more than meets expenditure requirements for the next six months.
- B. Our investments are concentrated in five major areas.
- 1) **State of California Local Agency Investment Pool (LAIF):** This pool is regulated by the California Government Code under the oversight of the Treasurer of the State of California. This pool is very conservative and its investments are very liquid. District funds are available to us in 24 hours by electronic transfer.
  - 2) **San Diego County Treasurer's Pooled Money Fund:** This pool is managed by the San Diego County Treasurer-Tax Collector's office. This pool is very conservative and its investments are very liquid. This pool is rated AA Af/S1 by Standard & Poor's. The AA Af rating indicates the extremely strong protection the pool's portfolio investments provide against losses from credit defaults. The S1 volatility rating signifies that the pool possesses low sensitivity to changing market conditions given its low risk profile and conservative investment policies. District funds are available to us in 48 hours by electronic transfer.
  - 3) **California Asset Management Program Joint Powers Authority Investment Pool (CAMP):** This pool is a short-term investment portfolio for California Public Agencies to invest surplus funds. Public Agencies that invest in the pool purchase shares of beneficial interest. This pool is also very conservative and its investments are very liquid. The CAMP pool is rated AA Am, by Standard & Poor's. This high principal stability rating addresses the ability of the fund to maintain principal value and limit exposure to loss. District funds are available to us in 24 hours by electronic transfer.
  - 4) **Securities Purchased Through Financial Broker-Dealers.** This category includes US Treasury Bonds and Notes, Federal Agency Securities, Corporate Notes, and Bank Certificates of Deposit (CDs) purchased through a financial broker-dealer and held in a third-party custodial account with Pershing L.L.C.. The Certificates of Deposit (CD's) are insured by the Federal Deposit Insurance Corporation (FDIC) or the National Credit Union Administration. (NCUA).
  - 5) **CAMP Individual Investment Portfolio:** The CAMP Individual Portfolio is a professionally managed investment account by separate agreement with CAMP's investment advisor (Public Financial Management, Inc.) and is specifically designed for public agencies. The CAMP Individual Portfolio was initiated in December 2004 and initial investment purchases commenced in January 2005. Investments purchased through the CAMP Individual Portfolio are held by US Bank in a safekeeping trust account. Investments are paid for only upon delivery by the brokerage house with the approval of the District's General Manager. All sales or

maturities have cash deposited directly to the safekeeping trust account. No board member, staff member or anyone other than the broker or the bank ever has possession of negotiable investment instruments such as stock or bond certificates. Investments in this area are made to attempt to enhance our overall interest and investment income.

- C. These investments and all investment actions executed since the last quarterly treasurer's investment report comply with California Government Code and with LWD's investment policy.

I, Paul J. Bushee, Secretary /General manager of the Leucadia Wastewater District, hereby certify the foregoing quarterly treasurer's report summary in accordance with Leucadia Wastewater District's investment policy.

Dated: 11/3/2020

### Notes

Yield to maturity (YTM) is the estimated rate of return on a bond given its purchase price, assuming all coupon payments are made on a timely basis and reinvested at this same rate of return to the maturity date. Weighted Days to Maturity is average time it takes for securities in a portfolio to mature, weighted in proportion to the dollar amount that is invested in the portfolio. Yields for the portfolio are aggregated based on the book value of each security.

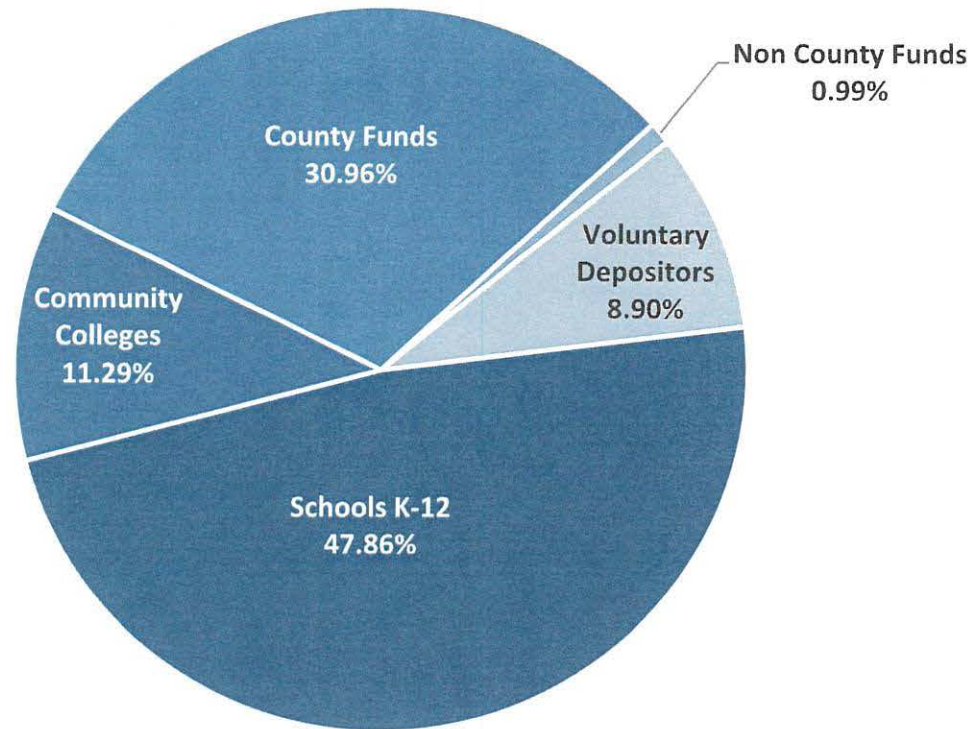

Monthly Investment Returns are reported gross of fees. Administration fees since fiscal year 17-18 have averaged approximately 7 basis points per annum. \*\*All Investments held during the month of September 2022 were in compliance with the Investment Policy dated January 1, 2022. The County Treasurer believes the Treasury Investment Pool contains sufficient cash flow from liquid and maturing securities, bank deposits, and incoming cash to meet the next six months of expected expenditures.

While Safety, Liquidity, and Yield remain the Fund's primary investment objectives, all else being equal and acting under statutory investment limitations, the County Treasurer affirms his/her commitment to the consideration of ESG criteria in evaluating securities. Sustainalytics, a Morningstar Company, provides high-quality, analytical environmental, social and governance (ESG) research, ratings and data to institutional investors and companies. Using Sustainalytics scoring, which is available on Bloomberg, the Pool had a weighted average MTN/CP/CD score of 21.70 as of 9/30/22, placing it in the "Medium Risk" category. Sustainalytics' ratings categories are: negligible (0-9.99), low (10-19.99), medium (20-29.99), high (30-39.99) and severe (40+).

\*\*Ratings by Standard & Poor's. Percentages may not total 100% due to rounding.

- 1 Total fund net assets, portfolio holdings valued at amortized cost, trade date based.
- 2 As of September 30, 2022, the current seven-day yield of the CAMP Cash Reserve Portfolio may, from time to time, be quoted in reports, literature and advertisements published by the Trust. The current seven-day yield, also known as the current annualized yield, represents the net change, exclusive of capital changes and income other than investment income, in the value of a hypothetical account with a balance of one share (normally \$1.00 per share) over a seven-day base period expressed as a percentage of the value of one share at the beginning of the seven-day period. This resulting net change in account value is then annualized by multiplying it by 365 and dividing the result by 7. Past performance is not indicative of future results and yields may vary.
- 3 Standard & Poor's fund ratings are based on analysis of credit quality, market price exposure, and management. According to Standard & Poor's rating criteria, the AAAm rating signifies excellent safety of investment principal and a superior capacity to maintain a \$1.00 per share net asset value. However, it should be understood that the rating is not a "market" rating nor a recommendation to buy, hold or sell the securities. For a full description on rating methodology, visit Standard & Poor's website ([http://www.standardandpoors.com/en\\_US/web/guest/home](http://www.standardandpoors.com/en_US/web/guest/home)).

## Portfolio Holdings Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. In some cases the pricing vendor may provide prices quoted by a single broker or market maker. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.
